

Case Study 3

Hilton Special Projects

Asaleo Care - Hand Sanitiser Stations

Asaleo Care, a leading personal care and hygiene company with recognisable brands like Libra, Handee, Sorbent and Tork approached Hilton with the intention to not only reduce their reliance on imported products, but to have a more price competitive product and shorter lead time to market.

Key Processes Employed

Project Management
Costing and Procurement
Packaging Development
Cad Modelling and Drafting
Tool Development
Laser Cutting, Press- Brake Folding, Robot
Welding, Pierce and bursting, Powder
Coating and Packaging

The Hilton Project Team worked with Asaleo to ensure their products met their safety requirements, price targets and tight delivery time frames to ensure every opportunity to support the community with a quality range of products for the ever increasing demand of sanitising related products during this difficult Covid 19 period.

In total, over 17,000 units were manufactured over a 10 week period to ensure strong inventory numbers for demand.
